1. CMA CGM Group equipment depot facility is available.
2. Truck fleet under CDP management have stations/garage in port area.
3. Better handling of logistics inventory and time control by early gate-in at any time before port CY opens.
4. Lower storage costs and more free storage days provision that will minimize risk of incurring progressive storage.
5. Bonded logistics center, warehouse function, Reefer plug, Container Inspection facilities, CFS functions are available
6. Port & Customs clearance, formalities, Quarantine inspection in one area.
7. CDP as Place of Delivery for import, or Place of Receipt for export can be indicated in the B/L.
8. CDP road movements connected to highway that will reduce traffic congestion and bottleneck at Tanjung Priok Port
